Metallica Remastered – a technologically advanced version of one of Stern Pinball's greatest hits that was originally released in 2013 and is one of the most successful and beloved pinball games ever.

Metallica Remastered has elevated the game to the modern era with gameplay, electronics, and presentation improvements. They are available as Premium and Limited Edition (LE) models.

It is updated with a full-colour LCD display featuring all-new animations and live concert video footage. Stern's modern Spike 2 electronics will power the gameplay experience.

Fans will enjoy expanded gameplay and improved presentation with 22 songs (8 more than the original) and expanded gameplay rules. Cabinet improvements include an Expression Lighting system and 2 all-new art packages by Metallica artist Rhys Cooper.

Players will experience the same great flow from the original *Metallica* playfield layout with geometry and mechanical improvements, new versions of gameplay toys, updated mechanical devices, and new UV lighting effects.

Stern Pinball has ensured that extra care and attention to detail has gone into every facet of *Metallica Remastered* while respecting the timeless classic game created by pinball legends John Borg and Lyman F. Metallica Remastered features an entirely new suite of presentation elements, including all video content and animations, new sound effects, and over 1,000 new speech calls that include callouts by the band. Eight new Metallica songs have been seamlessly integrated into the game and include new supporting animations, movies, and HD-quality live concert footage selected by the band. The Expression Lighting system for the cabinet and speakers comes standard with the Limited Edition version and is available as an accessory upgrade for Premium models.
